How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility”.

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may

have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk Rating

Veritas has rated the volatility of this Fund as medium.

This rating is based on how much the Fund’s returns have changed from year to year. It doesn’t tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund’s returns, see the “What are the Risks of Investing in the Fund?” section of the Fund’s simplified prospectus.

No guarantees

Like most mutual funds, this Fund doesn’t have any guarantees. You may not get back the money you invest.

How has the Fund performed?

This section tells you how the Class A Units of the Fund have performed over the past 2 years. Returns are after the annual expenses have been deducted. These expenses reduce the Fund’s returns.

Year-by-year returns

This chart shows how the Class A Units of the Fund performed in the past two years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Class A Units of the Fund in a 3-month period since the past two years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best Return	14.2%	January 31, 2021	Your investment would rise to \$1,141.
Worst Return	-16.9%	April 30, 2020	Your investment would decrease to \$830.

Average return

The annual compounded rate of return of Class A units of the Fund was 3.9% since inception as of December 31, 2020. If you had invested \$1,000 in this class of units at inception, your investment would now be worth \$1,088.

Who is this Fund for?

Investors who:

- Plan to invest for the long term
- Want access to research-driven investing
- Want to gain exposure to a diversified portfolio of large cap equities, and
- Are comfortable with a medium risk level.

A word about tax

In general, you’ll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund outside a registered plan, fund distributions are included in your income for tax purposes, whether you get them in cash or have them reinvested.

How much does this cost?

The following table shows the fees and expenses you could pay to buy, own and sell Class A Units of the Fund.

The fees and expenses – including any commissions – can vary among classes of the Fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

Sales charges

You have to choose a sales charge option when you buy the Fund. Ask about the pros and cons of each option.

Sales charge option	What you pay		How it works
	In percent (%)	In dollars (\$)	
Initial sales charge	0% to 3% of the amount you buy	\$0 to \$30 on every \$1,000 you buy	You and your representative decide on the rate. The initial sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission.

Fund expenses

You don't pay these expenses directly. They affect you because they reduce the Fund's returns.

As at December 31, 2020, the Class A Units' expenses of the Fund were 3.35% of its value. This equals \$33.50 for every \$1,000 invested.

ANNUAL RATE (AS A % OF THE FUND'S VALUE)	
Management expense ratio (MER) This is the total of the Class A Units' management fee (including the trailing commission) and Class A Units' share of the Fund's operating expenses. Veritas waived some of the Fund's expenses. If it had not done so, the MER would have been higher.	3.25%
Trading expense ratio (TER) These are the Fund's trading costs.	0.10%
Fund expenses	3.35%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and advice that your representative and their firm provide to you. Veritas pays a quarterly trailing commission to your representative's firm. It is paid from the Fund's management fee and is based on the value of your investment.

Sales charge option	Amount of trailing commission	
	In percent (%)	In dollars (\$)
Initial sale charge	1.0% of the value of your investment each year	\$10 each year on every \$1,000 invested

Other fees

You may have to pay other fees when you buy, hold or sell Units of the Fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of Units you sell within 30 days of buying them. This fee goes to the Fund.
Redesignation fee	Up to 2% of the value of the Units you redesignate. This fee goes to your representative.

What if I change my mind?

Under securities law in some provinces, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
