MANAGEMENT REPORT OF FUND PERFORMANCE

Management Discussion of Fund Performance for the six months ended June 30, 2022

Forward-Looking Statements (“FLS”)

The interim Management Report of Fund Performance may contain forward-looking statements (“FLS”). FLS means disclosure regarding possible events, conditions or results of operations that is based on assumptions about future economic conditions and courses of action and includes any future-oriented financial information (“FOFI”) with respect to prospective results of operations, financial position or cash flows that is presented either as a forecast or a projection. FOFI is FLS about prospective results of operations, financial position or cash flows, based on assumptions about future economic conditions and courses of action.

FLS can be identified using forward-looking terminology such as “may”, “will”, “should”, “expect”, “anticipate”, “target”, “project”, “estimate”, “intend”, “continue” or “believe”, or the negatives thereof or other variations thereon or comparable terminology. Due to various risks and uncertainties, actual events or results or the actual performance of the Fund may differ materially from those reflected or contemplated in such forward-looking information and statements. Material risk factors that could affect actual results are identified under the heading “What are the Risks of Investing in the Fund?” in the Fund’s Simplified Prospectus. Investors are also cautioned that FLS is based on several factors and assumptions, including a Fund’s current plans, estimates, opinions and analysis made considering its experience, current conditions and expectations of future developments, as well as other relevant factors. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

MANAGEMENT REPORT OF FUND PERFORMANCE

Management Discussion of Fund Performance for the six months ended June 30, 2022

This Management Report of Fund Performance represents the portfolio management team's view of the significant factors and developments affecting the investment fund's performance and outlook for the six months ended June 30, 2022, the investment fund's interim period end. Every effort has been made to ensure the information contained in this Management Report of Fund Performance is accurate and complete, however, the investment fund cannot guarantee the accuracy or the completeness of this material. For more information, please refer to the Funds' Simplified Prospectus ("Prospectus"). In this report, "Manager", refers to Veritas Asset Management Inc., the Manager of the Fund. The "Fund" refers to the Veritas Absolute Return Fund. In addition, "net asset value" or "NAV" refers to the value of the Fund as calculated for transaction purposes, on which the Fund performance is based. All dollar figures are reported in Canadian dollars and are expressed in millions, unless otherwise indicated.

Investment Objective and Strategies

The investment objective of the Fund is to achieve attractive risk adjusted rates of return that deliver long-term capital appreciation to unitholders. The Fund will invest primarily in the securities of publicly traded Canadian companies that the Manager identifies as mispriced. Long and short positions will be based in part on recommendations provided by Veritas Investment Research Corporation (an affiliate of the Manager). The Manager may also invest in securities that are not formally covered by Veritas Investment Research Corporation. The Fund will manage its long and short positions to reduce the impact of market volatility on the Fund's investment portfolio.

Risk

The risks associated with investing in the Fund remain as discussed in the Prospectus. The Fund is suitable for investors looking for a medium level of risk that is based on a research-driven, concentrated portfolio of Canadian Companies with a medium to longer term investment horizon.

For the six months ended June 30, 2022, there were no changes affecting the overall level of risk associated with an investment in the Fund. Therefore, the overall level of Fund risk and investor risk tolerance remains as stated in the Prospectus.

Results of Operations

For the six months ended June 30, 2022, Series A units were down 2.41%, from \$12.17 on December 31, 2021, to \$11.88. Including distributions, the total return for Series A units was -2.41%.

Series F units, representing the largest series of the Fund by asset value, ended at \$11.99, down 1.92% from \$12.22 on December 31, 2021. For Series F units, total returns including distributions were -1.92%.

Series I units closed the period at \$11.60, down from \$11.73 on December 31, 2021, resulting in a loss of 1.12%. Total returns for Series I units including distributions were -1.12%.

By comparison, the S&P/TSX Composite Total Return Index ("S&P/TSX TR") fell 9.87% over the first six months of 2022. It is important to note that the Fund's return is net of fees and expenses for professional management, while the benchmark does not have such costs.

The total NAV of the Fund as of June 30, 2022 was \$70.8 million. It began the year at \$46.8 million with net subscriptions totalling \$25.9 million.

The net assets of the Series A units increased 15.16% from \$7.1 million to \$8.2 million, primarily due to net subscriptions. The net assets of the Series F units increased 61.94% from \$36.9 million to \$59.7 million as a result of net subscriptions over the six-month period. The net assets of Series I units increased 1.59% from \$2.8 million to \$2.8 million, due to net subscriptions.

VERITAS ABSOLUTE RETURN FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Management Discussion of Fund Performance for the six months ended June 30, 2022

The Fund's performance versus the benchmark in 2022, for each of the Series A, F and I units, respectively, reflects bottom-up stock picking, both long and short, combined with careful management of net market exposures and daily volatility, which minimized the fund's volatility and losses during difficult market conditions.

The investment performance of the Fund included income and expenses which may vary year over year. The Fund's income and expenses changed over the period, mainly because of fluctuations in average net assets, portfolio activity and changes in the Fund's investments.

Recent Developments

Entering 2022, we positioned our investments defensively in anticipation that the inflationary forces unleashed in 2021 would continue, driven by elevated consumer spending, post-pandemic supply constraints and tight labour markets. With central banks signaling plans to reign in inflation by raising rates, we expected equity returns to come under pressure.

Russia's invasion of Ukraine in late February added further inflationary pressures and uncertainty to the global outlook, quickly pushing up grain and energy prices, and raising the prospects of further regional conflicts in Europe.

Over the remainder of 2022, we expect further pressure on earnings and valuations in the equity markets, as central banks continue to raise rates and inflation weighs on corporate profits and consumer spending. Given this backdrop, we think investors should be diversifying their portfolios away from equity risk in 2022. The Absolute Return Fund, through its use of alternative strategies that include short positions and options writing, remains well-positioned to deliver low market correlations and minimize return volatility in 2022.

Related Party Transactions

The Manager receives a management fee payable by the Fund for providing its services to the Fund. The management fee varies for each series of units. The management fee is calculated and accrued daily based on a percentage of the net asset value of the series of units of the Fund, plus applicable taxes, and is payable on the last day of each calendar month. The management fee for each of the applicable series of Units is as follows:

- Series A: 2.50% per annum of the net asset value of Series A Units of the Fund calculated daily and payable on the last business day of the month.
- Series F: 1.50% per annum of the net asset value of Series F Units of the Fund calculated daily and payable on the last business day of the month.
- Series I: Negotiated between the investor and the Manager and paid directly by the investor. The management fee rate on the Series I units will not exceed the management fee payable on Series F units of the Fund.

Expense reimbursement

Expense reimbursement by the Manager during the period ended June 30, 2022 amounted to \$5,259 (June 30, 2021: \$18,034), out of which \$nil was receivable as of June 30, 2022 (December 31, 2021: \$nil).

Ownership

As at June 30, 2022, 46,950 units (December 31, 2021: 30,272) of Series F were owned by parties related to the Manager. As at June 30, 2022, 235,001 units (December 31, 2021: 229,054) of Series I were owned by parties related to the Manager.

VERITAS ABSOLUTE RETURN FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Management Discussion of Fund Performance for the six months ended June 30, 2022

The following tables show selected key financial information about the Series A, Series F and Series I units of the Fund, respectively, and are intended to help you understand the Fund's financial performance for the six month period ended June 30, 2022 and for the years ended December 31, 2021 and 2020. The information shown assumes that all distributions made by the Fund in the period shown were reinvested in additional securities of the Fund and does not consider sales, redemptions, distributions or other optional charges that would have reduced returns or performance. Past performance does not necessarily indicate how the Fund will perform in the future.

The Fund's Net Asset Value (NAV) per Series A Unit (1)	June 30, 2022	December 31, 2021	December 31, 2020	December 31, 2019

Net asset value per unit	\$11.60	\$11.73	\$10.13	\$9.75

Notes:

- (1) This information is derived from the Fund's interim financial statements for June 30, 2022 and audited annual financial statement for December 31, 2021 and 2020 and is not a reconciliation of beginning and ending net assets per unit.
- (2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period.
- (3) Distributions were paid in cash or automatically reinvested in additional units of the Fund, or both.
- (4) This information is provided as at June 30, 2022, December 31, 2021 and 2020.
- (5) Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average NAV during the period.
- (6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average NAV during the period. Included in the trading expense ratio are the forward fees.
- (7) The Fund's portfolio turnover rate indicates how actively the Fund's advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the units in its portfolio once in the course of the period. The higher a funds' portfolio turnover rate in the period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund.
