Firm AUM ¹	\$100.4 million
Related Parties AUM ²	\$6.7 million
Volatility Risk Profile	Medium
Distribution Frequency	Annually if any

PORTFOLIO OBJECTIVE

The investment objective of the Veritas Canadian Equity Fund is to provide Unitholders with long term capital growth, earning enhanced risk-adjusted returns relative to the S&P TSX Composite Total Return Index by investing in a portfolio comprised primarily of the securities of Canadian companies.

WHY INVEST WITH US

- Driven by award winning research
- High-conviction concentrated portfolio
- Low market correlation
- Index and sector-agnostic
- Low turnover portfolio
- Strict risk management

INVESTMENT STRATEGY

The Fund invests primarily in Buy-rated securities recommended by Veritas Investment Research Corporation (VIR), based on VIR's forensic-accounting based research. The balance of investments consists of securities identified by the portfolio management team as underpriced.

Securities are selected based on their potential for long term capital appreciation, using bottom-up fundamental analysis and a strict review of accounting and disclosure practices to identify companies with defensible competitive advantages and the ability to generate meaningful cash flows.

The Fund restricts its equity investments to long positions in North American listed issuers and may invest up to 10% of its portfolio in the securities of U.S. issuers. Portfolio concentration and risk are managed to minimize volatility and no single position will represent more than 10% of net assets. The Fund may use derivatives such as futures, options, warrants and swaps for hedging purposes to protect against losses or reduce volatility resulting from changes in interest rates, securities values or exchange rates, however notional exposures are generally small and never more than 5% of net asset value.

ABOUT VERITAS ASSET MANAGEMENT

Veritas Asset Management (VAM) is an independent, employee owned, research-driven investment manager. VAM sources its investment ideas from Veritas Investment Research Corp. (VIR), an award-winning, independent equity research organization whose fundamental analysis is based on forensic accounting principles.

After studying the fundamentals and selecting ideas, the portfolio managers at VAM overlay a factor-based risk management strategy. This approach allows VAM to select a portfolio of names and individual weights that, when combined, are designed to minimize risk. VAM is sector agnostic and takes concentrated positions based on each company's relative risk/reward characteristics.

Together, VAM and VIR offer a unique investment solution that diversifies and adds value to investor portfolios.

COMMENTARY

Class F of the Veritas Canadian Equity Fund generated a -0.9% return in August versus a -1.4% return for S&P/TSX Composite index, bringing our year-to-date return to 2.9% versus 6.9% for the index.

The Fund's position in **Suncor Energy Inc. (TSX, NYSE: SU)** was the largest contributor to fund performance last month. **SU** reported its second quarter in August which included \$2.7 billion of adjusted funds from operations and \$1.4 billion in returns to shareholders split roughly 50/50 between dividends and share buybacks. We continue to like **SU's** free cash generation, which is likely to grow as the company executes on new CEO Rich Krueger's plans to streamline operations.

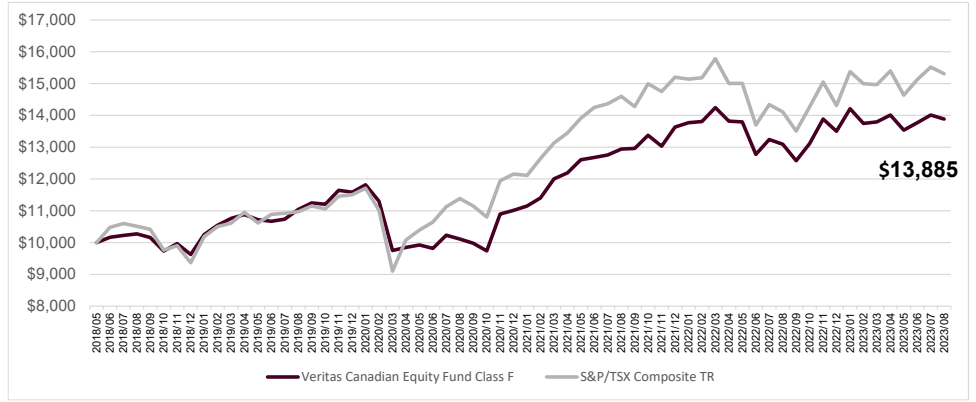

The Fund's position in **Canadian Natural Resources Ltd. (TSX, NYSE: CNQ)** was the second largest contributor to fund performance in August. Even though first half operations were affected by planned turnarounds, **CNQ's** adjusted funds flow reached \$6.17 billion against net capex of \$3.06 billion over the period, demonstrating the company's strong free cash flow generation. We expect **CNQ** to post significant volume growth and improved product pricing in the second half.

Our goal is to buy the best companies in sectors where we identify positive investment catalysts, while avoiding poorly positioned companies in challenged industries. We evaluate each company's ability to navigate good and bad economic environments, looking at the sustainability of cash flows; balance sheet strength; financial reporting transparency and governance.

DISCLOSURES

The information contained herein is for general information purposes and does not constitute a solicitation for the purchase or sale of securities. The full details of the Fund, its investment strategies and the risks are detailed in the Fund's current simplified prospectus, annual information form, and fund facts document, copies of which may be obtained from Sedar, your dealer, Veritas Asset Management Inc. ("VAM") or at Veritasfunds.com. Please read the prospectus before investing. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. All performance data assume reinvestment of all distributions or dividends and do not take into account other charges or income taxes payable by any unitholder that would have reduced returns. The performance of the Fund is not guaranteed, unit values change frequently and past performance may not be repeated. Performance is presented in Canadian dollars, unless otherwise stated, and is net of fees of Class F units of the Fund. VAM is an affiliate of Veritas Investment Research Corporation ("VIR"), which produces and issues independent equity research regarding public issuers to investors and other capital markets participants. VAM is a client of VIR and receives research reports from VIR at the same time as VIR's other clients. VIR and VAM have implemented policies and procedures to minimize the potential for and to address conflicts of interest, which are available upon request.

The S&P/TSX Composite Total Return Index is a Canadian dollar denominated, capitalization-weighted index that includes the largest float-adjusted stocks trading on the Toronto Stock Exchange, subject to inclusion criteria. The index provides the broadest representation of market-weighted returns for large capitalization Canadian-listed stocks, including reinvested dividends, making it an appropriate index for diversified portfolios that invest primarily in Canadian stocks, such as the Veritas Canadian Equity Fund. Contact Veritas Asset Management Inc. for more information regarding comparative indices.

Cautionary Note Regarding Forward-Looking Statements

The information in this release may contain forward-looking statements. All statements, other than statements of historical fact, that address activities, events or developments that Veritas Asset Management Inc., the Portfolio Manager, or any affiliates thereof (the 'Companies') believe, expect, or anticipate will or may occur in the future (including, without limitation, statements regarding any targeted returns, projections, forecasts, statements, and future plans and objectives of the Companies) are forward-looking statements. These forward-looking statements reflect the current expectations, assumptions or beliefs of the Companies based on information currently available to the Companies. Forward-looking statements are subject to a number of risks and uncertainties that may cause the actual results of the Companies to differ materially from those discussed in the forward-looking statements, and even if such actual results are realized or substantially realized, there can be no assurance that they will have the expected consequences to, or effects on, the Companies.

For a list of factors that could cause actual results or events to differ materially from current expectations, please refer to our Prospectus and the section 'Risk Factors'. Any forward-looking statement speaks only as of the date on which it is made and, except as may be required by applicable securities laws, the Companies disclaim any intent or obligation to update any forward-looking statement, whether as a result of new information, future events, or results or otherwise. Although the Companies believe that the assumptions inherent in the forward-looking statements are reasonable, forward-looking statements are not guarantees of future performance and accordingly undue reliance should not be put on such statements due to the inherent uncertainty therein.
