WHY INVEST IN VERITAS ABSOLUTE RETURN FUND?

- The Fund manages risks with the aim of preserving capital in down markets and achieving consistent returns.
- The Fund's long-short capability targets lower volatility than equities, less correlation to traditional asset classes, and greater downside protection.
- The Fund pursues an active investment discipline using forensic-accounting based research.
- Fundamental analysis is paired with systematic stock selection to generate alpha.
- Suitable for investors with a medium risk profile.
- Weekly liquidity.
- No performance fees.

PORTFOLIO OBJECTIVE

The investment objective of the Fund is to achieve attractive risk adjusted rates of return that deliver long-term capital appreciation to unitholders.

The Fund will invest primarily in the securities of publicly traded Canadian companies that the Portfolio Manager identifies as mispriced. Long and short positions will be determined primarily based (in part) on recommendations provided by Veritas Investment Research Corporation (an affiliate of the Portfolio Manager). The Portfolio Manager may also invest in securities that are not formally covered by Veritas Investment Research Corporation.

The Fund will manage its long and short positions to reduce the impact of market volatility on the Fund's investment portfolio.

FUND COMMENTARY

October 1st, 2019 marked the inauguration of the Veritas Absolute Return Fund. We are proud to provide investors with this easy-to-access actively managed portfolio, leveraging the expertise of Award-Winning Veritas Investment Research's "Buy" and "Sell" recommendations.

The Absolute Return strategy has been designed to provide stable risk-adjusted returns and lower overall equity market correlation while delivering an overall positive absolute return to investors through the medium and long term.

The Fund's Long position in Granite REIT (**GRT.UN**) was the top contributor to performance in January as investors flocked to Utilities, Industrials and Real Estate sectors. **GRT.UN** has not only benefitted from low interest rates across North America, it has also benefitted from extraordinarily low rates in Europe, which allows it to finance its North American warehousing spaces at approximately a third of the cost; a unique edge that **GRT.UN** exploits. **GRT.UN**'s industrial focus and its continued divestitures of its Magna properties portfolio have delivered increased shareholder value and position the company as one of the premier REIT's covered by Veritas Research, becoming a top pick in addition to its longer-term place in the V-List.

The Fund's Short position in Husky Energy Inc. (**HSE**) was the second-best contributor to the Fund's performance in January. While **HSE** is a well-run integrated player in the Canadian Energy sector, it does not benefit from the rise in demand for Canadian heavy crude as do its downstream peers. After Veritas Research identified that the company had overstated its projected free cash flow for 2020 in November 2019, the market is beginning to question **HSE**'s dividend and capex policies. Our energy thesis is long producers, short refiners.

We expect equity market volatility to persist driven by the recent Corona Virus outbreak, International trade tensions, individual sector concerns, volatile commodity prices, emerging market uncertainty and especially in Canada, consumer debt. In this environment and always, we continue to focus on owning fundamentally strong businesses with clean accounting and foreseeably bright futures. We will continue to take strategic short positions in companies whose overvalued securities demonstrate predictable weakness due to deteriorating business fundamentals.

ABOUT VERITAS ASSET MANAGEMENT

Veritas Asset Management (VAM) is an independent employee owned research driven investment manager. VAM was founded on the belief that superior research leads to better investment decisions. VAM sources its investment ideas from Veritas Investment Research Corp. (VIR), an award-winning independent equity research organization whose fundamental analysis is based on forensic-accounting principles.

Once ideas are selected, the next step in building a VAM portfolio is risk management. After studying the fundamentals, the portfolio managers at VAM overlay a factor-based risk management strategy. This approach allows VAM to select a portfolio of names and individual weights that, when combined, are designed to minimize risk. VAM is sector agnostic and takes concentrated positions based on each company's relative risk/reward characteristics.

Together, VAM and VIR offer a unique investment solution that diversifies and adds value to investor portfolios.

SECTOR ALLOCATIONS

PERFORMANCE

Mutual Fund regulations restrict the presentation of performance figures until a Fund reaches its one-year anniversary.

The information contained herein is for general information purposes and does not constitute a solicitation for the purchase or sale of securities. The full details of the Fund, its investment strategies and the risks are detailed in the Fund's current simplified prospectus, annual information form, and fund facts document, copies of which may be obtained from Sedar, your dealer, Veritas Asset Management Inc. ("VAM") or at Veritasfunds.com. Please read the prospectus before investing. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. All performance data assume reinvestment of all distributions or dividends and do not take into account other charges or income taxes payable by any unitholder that would have reduced returns. The performance of the Fund is not guaranteed, unit values change frequently and past performance may not be repeated. Performance is presented in Canadian dollars, unless otherwise stated, and is net of fees of Series F units of the Fund. VAM is an affiliate of Veritas Investment Research Corporation ("VIR"), which produces and issues independent equity research regarding public issuers to investors and other capital markets participants. VAM is a client of VIR and receives research reports from VIR at the same time as VIR's other clients. VIR and VAM have implemented policies and procedures to minimize the potential for and to address conflicts of interest, which are available upon request.
